

michelmores

businesslawtoday

In this issue:

Data mining in the AI industry
IP protection essentials
Green investment & net zero transition
ESG & employment law
Exploring 'Employee Owned Trusts'
Government's proposed changes to UK employment rights

Hi,

Welcome to the first edition of Business Law Today. We're really excited to be launching this publication, which will provide updates on a number of topical issues – from key legal developments impacting businesses, to 'how to' guides, and thought leadership pieces on topics relevant to your business.

We've got six articles in this edition, exploring a range of topics, but with a particular focus on AI and ESG.

As Head of Technology and Innovation at Michelmores, I have a keen interest in both of these areas, and there are certainly opportunities for businesses that are having discussions and embracing these concepts and technologies now. Particularly with AI, there's potentially a lot of change on the horizon as governments around the world grapple with the associated regulatory issues.

We'd welcome your input on topics you'd like us to address in future editions, so please do let us have your thoughts by using the link at the bottom of this email.

We hope you enjoy the first edition of Business Law Today.

Tom Torkar
